PROFESSIONAL SUMMARY

Software Developer with nearly 2 years of experience in web application development, ERP systems, validation applications, and document generation solutions. Proficient in Python, Django, PHP, JavaScript, React, Node.js, SQL, MySQL, and PostgreSQL. Experienced in debugging, database management, application optimization, and backend development. Familiar with Git/GitHub, AWS fundamentals, and CI/CD concepts. Built and deployed multiple full-stack applications including Fashion Frenzy, Events Management App, Todo Application, Movie Recommendation App, and Smart Campus.

TECHNICAL SKILLS

Programming: Python, PHP, JavaScript, Java, SQL

Frameworks: Django, React, Node.js

Databases: PostgreSQL, MySQL, SQLite

Tools: Git, GitHub, GitHub Actions

Libraries: NumPy, Pandas, Scikit-learn, Matplotlib

Cloud & DevOps: AWS Fundamentals, CI/CD Basics

Core Concepts: Data Structures & Algorithms, OOP, Web Development

PROFESSIONAL EXPERIENCE

Software Developer | Trayom Consultancy, Udupi Apr 2024 – Present

ERP Application

- Developed and maintained ERP modules for employee management, business operations, and data processing using PHP, JavaScript, HTML, CSS, and MySQL.

Cheque Bounce & Invoice Management System

- Built modules for cheque bounce tracking and invoice calculations, improving financial workflow automation.

Automated Validation Document Generator

- Developed a Django-based application to automatically generate validation documents from user input using Python, Django, HTML, and CSS.

PROJECTS

Fashion Frenzy – E-Commerce Platform

Developed a Django-based fashion website with authentication, profile management, product categorization, and booking functionality.

Events Management App

Built a React and Node.js application for event creation, registration, and event management.

Todo Application

Created a full-stack task management system using React, Node.js, and PostgreSQL with CRUD operations.

Movie Recommendation App

Integrated movie APIs to display movie information and personalized recommendations.

Smart Campus

Developed a Django-based campus management system supporting admissions, fee payments, library reservations, lecture information, and parent notifications.

EDUCATION

Bachelor of Computer Applications (BCA)

Dr. B.B. Hegde First Grade College, Kundapura | GPA: 91% | 2023

Pre-University Course (PCMC)

Viveka PU College, Kota | GPA: 90.33% | 2020

SSLC

Government High School, Thekkatte | GPA: 80.32% | 2018

CERTIFICATIONS

- Artificial Intelligence with Python – Keonics, Kundapura
- Python for Beginners – Simplilearn
- Introduction to Cloud Computing – Coursera
- Introduction to Front-End Development – Coursera
